ADDING VALUE IS THE KEY.

5th October 2023
10:00 - 11:00
Online Webinar

In this webinar, gryn will show the potential and major content of the new ISO 14083 (published in March 2023) for the quantification and reporting of greenhouse gas emissions arising from transport chain operations.

This new global standard aims to unify the heterogeneous carbon accounting and reporting practices in the transport sector world wide and consequently has the potential to simplify carbon management.

Goals:

- Presentation of the essential but complex quantification and reporting principles for ISO 14083 compliance in an understandable way
- Emphasis of the benefits of being ISO 14083 compliant

Talia Baxman
Sustainability Manager
gryn

Program:

- 10:00-10:10 Intro & Welcome - Jil Brimaire, Logistics Development Advisor at C4L
- 10:10-10:40 ISO14083 - Talia Baxman, Sustainability Manager at gryn
- 10:40-10:50 Q&A
- 10:50- 11:00 Closing words - Oliver Ritzmann, Founder & CEO at gryn
